[Count By Question](#)

I want to view Counts by:

- The number of registrants that registered each day, week or month
- The total number of registrants that registered each day, week or month

Frequency:

- Day of Year
- Week of Year
- Month of Year
- Days from Event Start
- Weeks from Event Start
- Months from Event Start

Group by Category

Compared To (optional):

- "2012 Vulcan Run"
- "All Out For Autism"
- "Austin MN Haitian Hustle"
- "Du-It-High" Duathlon
- "Lap-The-Lake 50" Bike Race/Ride
- "Lori Johnson 5K & 1M Family Fun Run Hosted by Greystone Club and Country Club"
- "Run Wild" 6K

(use the control key to select multiple events)

Include Past Events

[Generate Report](#)

Count by Date allows you to view the count of participants that have registered within a specific frequency of your event. You can compare categories or if you have multiple events (including past events) listed under your organization you can compare the events next to each other.

Count by Date

Example: Count by Category showing the number of participants that have registered in relation to the number of weeks prior to the event start date.

Count by Question

Count by Question gives you an overall count of the selected question that you have chosen. All questions that involve a 'count' will be displayed.

Example: How many participants selected a small T-Shirt size vs. medium, large, X-large; How many participants are in a selected Wave Time; How many participants selected they have run this race in the past etc.

If you have enabled a product page, all purchased products will be located under 'E-Commerce: Transactions'. You can view:

- Product Purchased
- Participant Name
- Price
- Mailing Address
- Date Purchased
- Confirmation Number

All transactions can be exported to Excel allowing you to filter and sort the transaction data how you would like it displayed.
