

Your race today will be scored by the
Big White Trailer timing service.

Please, review your rosters. If there are corrections or additions, get them to the scoring area before the race if at all possible as corrections are best handled before the race. In any event, PLEASE do not leave the event without correcting any roster changes/errors as results are posted immediately following the event, and changes are far more difficult after results are published.

Runners' Responsibilities

- Bibs are to be worn front & center.
- Do NOT pin the big hole.
- Please do not crinkle or write on the tag as it makes scoring more difficult.
- The *race* is over at the clock at the finish line (Clock weather permitting, LARGE cones as well).
- The *runner's work* is not done until he/she goes through the chute and the tag is collected.
 - Stay in line, in the order the judge at the finish directs.
 - Runners that collapse at the finish will be handled, but others should watch for them. The tag will be pulled by finish line volunteers & the runner removed from the chute.
- DO NOT pull the tag off the bottom of the bib before finishing the race.

Results and corrections

- Results are posted *about* 5 minutes after the last runner crosses the line. Depending on schedule and time, this may be after the start of the next race.
- There is then a 15 minute window to protest results. After 15 minutes, results are final.
 - Coaches - please check results in a timely manner.
- Changes to results that affect scoring MUST be approved by the meet director.

Results will be posted after the race at www.bigwhitetrailer.com - that's Big White Trailer .com
